Step completed successfully

The figure consists of two side-by-side line charts. The left chart is titled 'Receive Bandwidth' and the right chart is titled 'Transmit Bandwidth'. Both charts have a y-axis representing bandwidth in MB/s, ranging from 0 to 15. The x-axis represents time. Each chart contains multiple colored lines representing different deployments. The 'account-deployment-548b974985-qnb1n' deployment (green line) shows the highest bandwidth usage, peaking at approximately 15 MB/s in both directions. Other deployments like 'analytics-deployment-6cc8d57179-mjhg' (orange line) and 'spigateway-deployment-b847b6971-tv95' (yellow line) show lower usage, generally below 5 MB/s. The 'asset-deployment-76ff4cb786-c6848' deployment (blue line) shows very low usage, near 0 MB/s.
